

A very rare six leg cane seated armchair

Ref: IPS 53 See also AES 69

SOLD

YEAR	1880
MATERIALS	Cane

About this piece

A very rare six leg cane seated armchair designed by R. Edis. It would seem that this chair may have been an experimental chair and although it follows closely Edis original four leg version it is quite a design achievement in it's overall form and very functional. Circa 1880.
