### About this piece

This **Arts and Crafts brass wall light** was made around 1900 and reflects the restrained practicality typical of late nineteenth-century domestic fittings. The scrolled brass arm rises from a circular backplate and supports a single lamp holder.

Its simple, well-balanced design represents *British vernacular lighting design*, where solid materials and unadorned craftsmanship defined the period aesthetic. The shade shown is for display only and not included in the sale

Further images available on request. The piece is currently held in storage at one of our showrooms.
