CONDITION	Good

About this piece

Lamb of Manchester

An Aesthetic Movement ebonised and coromandel side cabinet, with a bevelled mirrored and shelved back, a glazed base with a spindle galleried undershelf, stamped to top edge of door.

Possibly designed by **W. J. Estall**. Lambs were one of the very best cabinet makers of the period: A pure Art Furniture company, whose furniture designs were at the forefront in England in the late 1800s.
