About this piece

A near pair of oak Arts & Crafts bookcases by Liberty and Co. with two leaded glazed doors with adjustable shelves behind, with a single heart cut-out just above the lower open shelf. Extended shelves to each side with elongated supports uniting the cornice and shaped supports below. Both have identical copper handles, one has hinges and one doesn't and never did. One has a moulded detail to the cornice and the other is plain. I will sell singularly or as a pair.
