About this piece

The Sanctus pugin tiles came from St Josephs, Bootle docks. Liverpool. There are 245 in total and five more that have been glued back together making 250. There are 16 in the image here and 16 make up a 2" square panel so there is quite a big area almost 8 square feet. There are also around a 100 or more 6" x 1.5" boarder tiles that would go well with the above.
